

# Anthony Rossman

## FULLSTACK SOFTWARE DEVELOPER

### EDUCATION

May 2025

Fullstack Developer Certificate - Boise CodeWorks

### EXPERIENCE

2024 - Current

**Freelance Developer**

- Building a custom Ecommerce site with Stripe and Auth0 integration.
- Designing and developing a SaaS tool for client intake automatization targeted towards plaintiff civil law firms. Currently in the development phase.

2019 - 2024

**Legal Assistant • Rossman Law Group, PLLC**

- Served as first point of contact for prospective clients, assessing case viability and managing intake data.
- Coordinated case files and supported attorneys through trial preparation, contributing to record-setting verdicts.

2018-2019

**Production Specialist • BioMark Inc.**

- Data entry and production of RFID technology used to track and curb the endangered status of various species.

### OBJECTIVE

Fullstack Developer skilled in JavaScript, TypeScript, C#, Python, NoSQL, and SQL. Looking for a role in a fast-paced, collaborative environment that promotes continued learning.

### PROJECTS

#### Antique Ecommerce Website

- A full stack SPA website for a single-item antique seller, Utilizing a Vue 3 + TypeScript frontend, C#/.NET + MySQL backend, and Stripe & Auth0 integration for payment and authentication.
- Features include custom SVG animations, an easy-to-use Admin page for product additions/updates and database access (such as Stripe Payment data or webhook logs), Entity Framework schema migrations, and Public & Private Data Transfer Objects for data encapsulation and security.

#### Full-Stack Project Template

- An open-source, opinionated project template for developers using a Vue 3 frontend and C#/SQL backend.
- Auth0 integration built in, TypeScript frontend environment on start-up, and pre-written scripts to make project setup and Entity Framework migrations simpler.

### TECHNOLOGIES

- HTML, CSS/SCSS
- JavaScript, TypeScript, and C#
- Vue.js
- NoSQL & MySQL Databases
- Node.js, Entity Framework, and .NET Core
