Anthony Rossman

FULLSTACK SOFTWARE ENGINEER

EDUCATION

May 2025
Fullstack Developer Certificate – Boise CodeWorks

OBJECTIVE

Fullstack Developer with experience in JavaScript, Node.js, Vue.js, SQL, and C#, and currently learning TypeScript. Looking for a role where I can keep growing while building software that's reliable and easy to use.

EXPERIENCE

2024 – Current
Freelance Developer
- Built and maintain a production-level Ecommerce site with AWS deployment and ongoing updates.
- Co-developed a prototype fitness challenge app (NDA) for proof of concept.

2019 – 2024
Legal Assistant • Monteleone Law
- Served as first point of contact for prospective clients, assessing case viability and managing intake data.
- Coordinated case files and supported attorneys through trial preparation, contributing to record-setting verdicts.

2018-2019
Production Specialist • BioMark Inc.
- Produced and utilized cutting edge RFID technologies to track endangered species.

PROJECTS

Keepr
  - A Pinterest clone for users to share pictures, create albums, and save their own or other user's pictures to their albums.
  - Utilized a Vue.js client side, C# server, and a MySQL API for data storage.

Antique Ecommerce Site
- A freelance Ecommerce site built for a client, selling single-item antiques from all around the globe.
- Utilizes Vue.js with TypeScript client side, Express for Node.js on the server side, and a NoSQL Database, and is deployed and maintained through Amazon Web Services.

TECHNOLOGIES

- HTML & CSS/SASS
- JavaScript & TypeScript
- Vue.js & Node.js
- C#
- NoSQL & MySQL
